

## Durham Trinity School & Sports College

### Additional information for the Secondary Resistant Material and Computing Teacher vacancy

#### We moved in to our new school in November 2014

**Would you like to be the secondary Resistant Material and Computing teacher in this purpose built environment? If so, read on.**

It has brought together the 3 sites of the school in 1 building.

Our new school building accommodates:

- Nursery, KS1 & KS2 classes, all ages of specialist ASD provision, all ages of sensory provision on the ground floor. Each class has direct access to their outdoor learning space.
- Secondary pupils and Post 16 pupils on the first floor. Specialist teaching rooms are located on this floor.

There are 2 dining areas on the ground floor. One is used by primary pupils and the other by secondary pupils. The multi-purpose hall is timetabled for PE lessons throughout school.

The design of the building has embraced the gradient of the site and there is a small lower ground floor area. The small swimming pool is located on this level along with a variety of rooms for visiting professionals and school based staff.

Externally there is a MUGA and sports field. The MUGA is operational and the grass has grown on the sports field but will not be operational until May/June 2016. There is also a grassed area for pupil use below the building and car park. Again we have to wait for the grass to become established in this area although we have recently planted a fruit orchard.

We are a popular generic special school catering for pupils aged 2-19. Currently there are 213 pupils on roll. Over time this will rise to 220.

We have a diverse staffing complement:
